PROJECTS

Internal Banking Projects (BIAT Development Center)

2021 - Ongoing Tunis, Tunisia

- "BIAT Checks APP" : Full Stack APP to manage .bat files to generate reports of checks [Spring / React]
- iTop 2.7 : Integration of this ITSM solution (ITIL oriented) to manage your user requests, incidents, problems, changes and service catalog in a single platform. [php, XML , JS]
- Migration Project : Upgrading applications with ActiveX Objects (run only on Internet Explorer) to make them supported by Microsoft Edge [JavaScript]

MERN Product Delivery APP "A9dhili_TikTak" (GoMyCode)

2021 Tunis, Tunisia

<https://codesandbox.io/s/peaceful-mestorf-xg8k9?file=/A9dhili-tikTak-WebApp/>

A9dhili Tik-Tak is a full-stack system build in MERN.js which aims to offer a customer a range of food products to order. Then the customer can choose and order a menu build on its own. [ReactJS | React Router | Redux | NodeJS | ExpressJS | MongoDB]

React Movie Hub APP (GoMyCode)

2021 Tunis, Tunisia

<https://codesandbox.io/s/github/islembraham/ReactMovieHubWithHooksAndRouting>

Movies and TV Series App in [React JS] and [Material UI] with full responsive functionality. We will use MovieDB API for back-end.
